### Global Vehicle Systems Inc., Celebrates Successful 2005

Global Vehicle Systems Inc., celebrated a successful 2005 with a company wide Christmas party held at the Riverside Grill at the Casino Windsor Hotel.

Nearly all employees attended and were treated to a magnificent meal with all the trimmings. Recognition was given to those employees who participated in the numerous training courses offered by Global throughout 2005. Each received wall plaques outlining their various accomplishments; nearly 70 plaques were presented.

David Butler, President, and Mario Boucher, CEO, made a brief address to the staff on behalf of Global's owners and senior management to thank employees for their continuing dedication and efforts and to congratulate them on an outstanding year. In appreciation of everyone's efforts Mario and David surprised all in attendance by announcing that every Global employee would receive a special Christmas gift from Global; a 27" Widescreen LCD HDTV. This announcement caused quite a bit of celebration and proved to be a wonderful acknowledgment of Global ownership's appreciation of its staff.

2005 saw Global make a number of changes aimed at growing and improving the company. Among the most noticeable were the:

- **Several facilities improvements** at our **Tooling and Equipment Division** including a new cafeteria, lobby and conference room improvements, controls design and build area, new tool crib, and shipping and receiving area enhancements.
- **New CNC equipment** acquisitions that expanded our machining capabilities.
- A number of additions to our production staff and management team: **George Potocean-Engineering Manager, Deb Duplessie-Supply Chain Manager, Vickie Rougoor-Accounting Manager, Tina Wahby-Quality Manager, and Marc Levesque-Business Development Manager.**
- Launch of a **new product**, the **G-MAD™** Heavy Truck modular roof air deflector.
- Launch of an implementation plan for a **new ERP system** that will improve Global's purchasing,

scheduling and manufacturing effectiveness while also providing management with a practical tool to manage our business.

- Sustainable improvements to Global's delivery and quality performance which has resulted in **improved customer satisfaction.**

Global has ambitious objectives for 2006 which will focus on its becoming the recognized leader in innovative thinking and the company of choice for **tooling solutions** and the **design, manufacture, assembly, and painting** of products and parts for **automotive, heavy truck, recreational and leisure industries.**
